# Create a custom flyer with the following simple steps

Add your logo.
A 2.25 inch wide x 1 inch high, high resolution JPG will work well.

Add your company name here.
Type should be set in DIN Medium Alternative, 26pts if available. Arial Regular can also be used as an

Add your url or phone number to this call to action line.
Type should be set in DIN Bold Alternate or Arial Bold, 11pts in orange.

STEP 1: **CHOOSE THE TEMPLATE FOR THE APPLICATION THAT YOU FEEL MOST COMFORTABLE WITH.**

We have provided the following templates: Adobe Acrobat (PDF), Microsoft Word and Adobe In-Design. To customize the PDF file directly, you will need the full version of Abobe Acrobat Pro, not just the Acrobat Reader. Alternately you may choose to update the Word or In-Design files.

STEP 2: **INSERT YOUR LOGO TO THE RIGHT OF THE MUSIC & MEMORY LOGO**

Insert a JPEG, Tiff, PNG, or EPS file. Files need to be high resolution (300 dpi at actual size). Logos used on your website are normally not high resolution and will not look sharp when printed. Adjust the size of your logo file as needed so that's about the height of the Music & Memory logo.

STEP 3: **ADD YOUR ORGANIZATION'S NAME TO THE VIOLET HEADLINE BAR AND YOUR URL OR PHONE NUMBER TO THE CALL TO ACTION LINE AT THE BOTTOM OF THE FLYER**

Sample was set using the font DIN but you may also use Arial if DIN is not available.

STEP 4: **SAVE YOUR AND PRINT YOUR FILE**
